Figures for Oakland, Berkeley and Other Cities.

IASSOCIATED PRESS NIGHT REPORT.) WASHINGTON, Nov. 16.—The population of San Francisco is 416,912, according to the statistics of the thirteenth census, made public tonight. This is an increase of 74,130, or 21.6 per cent. over 342,782 in 1900.

connection with the announce-t of the population of San Fran-t, the Director of the Census said original returns contained 420,234 es, but of these, on investigation the Census Bureau 3322 were elim-d. There was found no evidence recentional fraud on the cart of nal fraud on the part of

of intentional fraud on the part of the enumerators.

"The principal classes of names eliminated," says Director Durand,
"were those of persons on vessels not having San Francisco as their home port; fishermen absent on the high seas whose names were obtained from their employers and not from their bearding houses or other places of residence; and persons whose names are obtained from employment agen-cies, having been sent by such agen-else to work outside of the city prior to census day.

Thus, a consider-number of Chinamen who had to Alaska to work in the can-st there were allowed to be enum-ed in San Francisco because they reported from the houses where had residences and to which they cited to return."

BAT FALLS SCANDAL

in 14.250 in 1900.

Director Durand in a statement said a Great Falls returns as originally selved showed a total of 23,324, or 8, is more than the correct count. The rector attributes the attempted pading to three out of twelve enumerations of the city, sixty per cent. of whose turns, he says were fraudlent. The rece men were arraigned and two of home sent to jull for twenty-four hours ach and fined \$150 each, while the third ras in prison for forty-eight hours and med \$200. He says that the increases were obtained largely by taking the sames of transient visitors to the city, which were placed in the hands of the numerators by private individuals.

The returns show a decrease from the figures of 1900 amounting to \$25, but \$Mr. Durand contends that as there was fraud in the 1900 census there has been an actual growth.

One or two of the roads were not represented, and it will be necessary to take up negotiations with them before the movement can be adopted. The basis today is one and one-half fares plus \$2, with a certain minimum which prevents rates of too low a level in 2-cent States. There are rates to South Texas and the Northwest, however, which have been abnormally low, and the new basis would remedy the situation. FIXING HOMESEEKERS RATES.

DECIDE COUNTY SEAT.

NEVADA VOTERS HOT FIGHT.

[BT DIRECT WIRE TO THE TIMES.]

TERINGTON (Nev.) Nov. 16.—[Exclusive Dispatch.] The main interest in the election in Lyon county centered in the question as to who would be chosen for the Assembly and for County Commissioners, the much agitated county seat question determining what ticket each voter would support. There was an understanding among the people that if Stickney and Fallon were elected they would, with Senator Reymers, request the Legislature to remove the county seat from Dayton to Yerington. Substantial majorities elected the former two men, after a fierce fight, and it is believed that the matter of Yerington's success will be recognized without any further contests.

Seattle Traveler Says South Sea islanders Consider Human Flesh a Delicacy.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, Nov. 18.—Discussing the story told at Victoria yesterday by Dr. Northcots Deck, who found in the Solomon Islands remnants of the bodies of Baron Von Norbek, the Australians scientist, and his companions, eaten by cannibals, Davis Paul of this city, who has visited all parts of Australasia, said today that cannibalism was still widely prevalent in the South Seas.

Since the Germans, French and English have annexed various groups and forbidden cannibalism, the anthropophagi are obliged to be more cunning, and when they feast on human fiesh they retire to the mountains and leave no trace of the banquet.

Steaks are ut from the fleshy portions of the body, and these steaks are inclosed in hollowed stones and feet are cut off and thrown away, and the head formerly was suspended from a tree as a decoration.

Mr. Paul arrived at a feasting ground in New Guines a short time after the meal had been concluded, and found the bones of the arms, forearms and legs and thighs of four natives, picked clean.

Charges of Indiscretion With Girl Organist, Followed by Public Statement, Rend Church.

(BY DIRECT WIRE TO THE TIMES.)

SUTTON (Mass.) Nov. 16.—[Exclusive Dispatch.] Endesiring letters written by Miss Anna Whipple, a dark haired girl of 24, to the Rev. Oscar F. Stetson, paster of the Eirst Congregational Church, and signed, some of them, "Wife," are the cause of trouble that has rent the church.

The pastor's public plea for pardon, following charges of indiscretion with the girl organist, came as a climax in.a. series of unusual events.

"Four years ago when I took charge of this church, I asked my congregation to be square with me," he said. "I promised that I would be square with them. I am now living up to my agreement. Yes, I suppose it is unusual," he continued, "for a man to come out publicly and ask forgiveness but that is the only thing that seemed right to me. I want to be frank and honest. I have offered my resignation to the congregation. They can do as they see fit. I shall stay here until the first of the year, when my term expires. Other than that I have made no plans."

A tendency to condone the pastor's alleged indiscretions is shown in the report of the committee appointed to investigate tomorrow.

McLean told his story/to Detectives Cowan, Zeigier and Hosick and they took Roberts into custody.

According to McLean's story he formed an acquaintanceship with Roberts and two other men, while spending a short vacation in San Francisco, and they became anterested in horse-racing. It was proposed that the four men make a bet on some of the race results. McLean declared yesterday, and he placed \$1000 in Roberts' hands, the latter having been chosen as stake holder. While awaiting the result of the race, McLean said Roberts disappeared with his money.

Unable to get his cash back, McLean said he returned to his home and the matter was dropped.

own compositions. "Lullaby," a delicate place sung piano, was given a perfect reading by the club. His other number, "Im Tiefen Keller" (Down in the Celiar)—a German drinking song—was dedicated to the Ellis Club. We should see more of Mr. Schoenefeld wielding the baton, for he is then in his element. He must have been highly gratified with the hearty response his compositions received.

The Club was assisted by Miss Hasel Runge, mezzo soprano. Miss Runge has a beautiful volce, well trained, which she uses very artistically. She was compelled to sing encores after each of her programmed numbers, which were "Die Lorelei" (Franz Lisst,) and (a) "Hindoo Song," (b) "Mifanwy," (Dorothy Forster) and (c) "Love in May" (Horatio Parker).

The club numbers were "Soldiers' (Cheus" from "Faust," "Dreaming," (Shelly) 'Redeman's Death Chant" (Bliss;) "Sing, Sing, Music Was Givea." (Brewer;) "To the Sons of Art" (Mendelasohn,) assisted by quartette composed of Messrs, Paul, Dunn, DeBruiler and Steckel; "The Frost King" (Pike;) "The Rosary" (Nevin,) and closing with "By the Beautiful Blue Danube" by Johann Strauss.

The Club was also assisted by Mrs. Ada Marsh-Chick at the organ. The accompaniste was Mrs. M. Hennion-Robinson, whose work was satisfying in every respect. more than a year. or cent, never cui-the Superior Court.

The Euterpsan Quartette, the members of which are Messrs. Dupuy, Nay, Wallace and Zinnamon, all of whom were, and are yet, with the exception of Mr. Dupuy, now director of the Orpheus Club, members of the Ellis Club since its organization, Tuesday night celebrated its twentieth anniversary, their first appearance being with the S. N. Club, a musical organization existing at that time. This is a record that is held by few male quartettes. The members and their families celebrated the event in a downtown cafe.

The seat sale for the Nazimova engagement will open this morning at the Majestic box office.

It will be David week at the Burhank next week, when "A Grand Army Man" is staged. First of all, David M. Hartford is conducting the rehearmis and preparing the production. The same David will play the part of Judge Andrews, father of the heroine, and one of the principal "villains in the play." David Landau will be another member of the cast, as usual. David Belasco controls the piay, and it was through personal arrangements made with him by Mr. Morosco in New York that the Burbank got the play. The fourth David linked with the production is David Warfield, who starred in it for several years. If all these Davids prove to be giant killers it should be aBrobdignagian week at the Burbank. A. EL CENTRO, Nov. 16.—[Exclusive Dispatch.] The controversy as to election of Supervisor for the 4th Supervisoral District of Imperial county will probably be taken to the Superior Court. When the ballots were counted, willis Beal, Socialist, was declared elected. The vote of Brawley outside precinct showed in written words seventy-seven votes for R. E. Willis, Democratic opponent of Beal, thus giving Beal a majority of two.

When tally marks were counted by the Supervisors this week they showed eighty-two for Willis. Five tally marks at the last of the row showed different ink, and the count does not cerrespond with that of the duplicate tally sheet. After discussions by attorneys for each candidate the Supervisors today declared Beal elected. It is believed supporters of Willis will take the matter to court at once.

FIRST MEET IN DECEMBER.

ARRAD OF TIME

Curtiss to Manage Events at the Motordrome.

Brings His Entire String of Aeroplanes Here.

Has Built Monoplane Which He Hopes to Fly.

The first big aviation meet of the winter is to be given December 9, 10, 11 at the Los Angeles Motordome under the management of Glenn Curliss who is to bring all the members of his team here and in addition the English aviator Radley with a Bieroit menonians.

English aviator Radley with a Bleroit monoplane.

The Curtiss string consists of seven or eight machines with five aviators in addition to Radley, and includes a new monoplane which Curtiss has built and which he expects to fly extensively for the first time at this meet.

Ourtiss has become a member of the Aero Club of California and as such will share the big hangar with the other members, a section being set aside for his exclusive use. If the big 400 foot building will not accommodate all the machines, an addition will be erected and tents will be put up.

drome this morning and look over the ground.

Curties and his men expect to hold their meets inside the motordome, starting and alighting within the enclosure and following the course of the track in short fights. In trials for alititude and for distance and duration, the wide extent of the upper air will be used, with no definite limits but with the motordome as a final chiestive point.

objective point.
Willard has a big passenger-carry-ng machine and it is his purpose to take up a military man with a rise and shoot at targets on the ground, as was done at the Belmont aviation meet.

Ely is the man who recently flew done at the Belmont aviation meet. Ely is the man who recently flew from the deck of a battleship five miles to land. Mars has developed into the dare-devil aviator of the bunch. McCurdy has done some excellent work. Curtiss himself expects to fly at the meet and will personally try out his monoplane. He has greatly perfected his machines since he was here last winter and is doing a great deal finer work.

The meet is to be the first of a series of events to be given through the winter. Cartiss expects to establish permanently here and to put up a factory and a tryout grounds with instruction station.

light of the machine, but only one lad
semed to understand. This youth
umped in front of the fiyer and made a

machine swerved into a fence and
masked a wing.

Robert Emmet Harvey, promoter of

that possibly he would be present on
Monday and direct Mars's flights.

[ASSOCIATED PRESS NIGHT REPORT.]
CAMBRIDGE (Mass.) Nov. 16.—The Carlisle Indians swooped down on Soldier's Field today to meet a picked eleven of the Harvard Law School, made up of players who had won their spurs in previous years at Harvard, Yale, Primeton, Michigan, Nebraska and Holy Cross. The picked team, under the leadership of Hamilton Fish of the eleven of 1909 of Harvard, assisted by Philbin, one of the Yale stars last year, defeated the Indians, 3 to 9. The Law School team was too aggressive for the Indians in the first period and seven minutes from the start, after pushing the ball to the Carlisle fitteen-yard line, Philbin dropped an easy goal from the field.

In the second period the Law School was twice inside Carlisle's twenty-nveyard line, and once on the eight-yard line, and once on the eight-yard line, but tould not score.

In view of the roughness of the road, which shortly before had been washed out in many places by freshets, this is considered a romarkable accomplishment. The machine is owned by a transportation company, which hopes to displace sleds with automobiles.

RESIGNS SUGAR DIRECTORATE

Son of Late H. O. Havemeyer Retires

Independent Interests.

INT DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 18.—[Exclusive Dispatch.] Horace Havemeyer, son of the late H. O. Havemeyer and last of the Havemeyer family to be identified with the American Sugar Refining Company, has resigned as director upon the election of his successor.

The Havemeyer name will hereafter be definitely separated from the management of the sugar trust.

Explanations offered today for the resignation of Havemeyer made it apparent that it was largely due to interests the Havemeyer family have in an independent company. This is particularly true of the large Havemeyer holdings in beet sugar companies.

Mr. Havemeyer, explaining his resignation, said: "I resigned to look after personal matters and affairs of my father's estate. I want to make it clear that there is no friction between myself and the board or individuals.

"The impression prevailed that this company was a Havemeyer institution, but this was erroneous. My father was always president of the company's organisation."

#### ormer Sheriff Interviews Ventura Old Timers Regarding Highway Through Malibu Ranch.

Through Mailbu Ranch.

VENTURA, Nov. 16.—J. Frank-Burns of Los Angeles, who was Sheriff of that county forty years ago and later Chief of Police, was in this city yesterday looking up records on Malibu as a highway in the olden days.

Mr. Burns spent the day interviewing old-timers.

Thomas Clark, a pioneer of the Upper Ojal and uncle of Supervisor Clark, was badly hurt yesterday by being run over by a disc cultivator. The machine ran over his foot and leg, cut the limb badly and severed one of his great toes.

In the next game of baseball between Oxnard and Ventura, which is to take place here. Sunday next, "Happy" Hogan of the Vernon team will act as umpire. This will be the fourth game between the rival clubs. Oxnard already having won two. As there are a number of big league players in both teams, including Charley Hall, Snodgrass, Barnett, Heurne, Shea and Schaffer and Hunt, the contests are exciting much interest.

N many years no material for shoes has so completely captivated the feminine fancy as has Velvet. The rapidity with which the fad is spreading promises that this material will remain the vogue for the season at least and perhaps, like suede, it may become permanent.

Our assortment of "swell" Velvet Boots can but add fuel to the flame, for "classier" boots were never displayed anywhere at any price.
